

INTRODUCTION & CAPABILITY STATEMENT

Baines Drilling has been active in Western Australia for over 30 years. Starting in the 1980's as a water boring contractor, Baines Drilling made the transition in around 2005 to specialise in the drilling and installation of deep earthing for statutory supply organisations and land development companies.

Baines Drilling is a fully WA owned and operated family company, employing a small and stable workforce of skilled operators. They operate from a base in Naval Base, with workshop and support facilities; and are well situated to service clients in any location throughout the Perth metropolitan area, as well as country locations.

Baines Drilling hold a Class 3 drilling licence with method endorsements for Rotary Air, Rotary Mud and Auger. They maintain a comprehensive health, safety & environmental management system, that is fully compliant with all the requirements of AS/NZS 4801:2001 (Occupational health & safety Systems) and AS/NZS ISO 14001:2004 (Environmental Management Systems), as well as AS/NZS ISO 31000:2009 (Risk Management – Principles & Guidelines) and are Western Power Network Authoritised.

Baines Drilling employ an in-house electrician to ensure compliance with all installation and testing requirements, all employees receive comprehensive training and adhere to high safety standards. They operate a near new fleet of drilling equipment capable of installations up to 150m in even the hardest of ground conditions.

Baines Drilling's modern on-site equipment can cater for any terrain and includes;

- 2012 Moorooka Mounted Drilling Rig,
- 2007 4x4 Hino Mounted Drilling Rig,
- 2014 4x4 Isuzu Mounted Drilling Rig,
- 1990 Mitsubishi Bogey Drive Mounted Drilling Rig
